One Last Thing

1

Congratulations!

You Can Start Using
Your Insurance

1 Your Scheme

The number or letter after it denotes your hospital network level.

2 Your Membership Number

This is your unique number that hospitals use to verify your membership benefits with us.

3 Contribution

It defines how much you have to pay directly to the hospital whenever you require treatment. **MPN** means Minimum Provider Network.

4 Policy Number

This is the number of your company's policy coverage being used as reference by us and the hospitals. This is your coverage level as agreed with your company.

5 Approval & Room

Shows your coverage levels to the hospital before sharing your approval requests with us. Room shows your accommodation level in case of an in-patient service.

6 Expiry Date

This is the end date of your policy coverage with us.

7 National ID/ Iqama Number

Frequently Asked Questions

How to know my benefits?

Refer to the Table of Benefits enclosed with your pack to know all the details of benefits you are entitled to. We advise you to register in our online services by visiting member.bupa.com.sa to get all the details of your benefits.

What is the duration of my policy?

The policy duration should be from the activation of the Policyholder contract, not from the inception date of the member.

Which hospital or clinic can I go to for treatment?

You can go to any hospital or clinic included in the list enclosed in this pack. There is a chance that your list has been updated from the first time you received it. To get an updated one, visit our website at member.bupa.com.sa.

Can I add a specific hospital/clinic.

We can't add a medical provider after activating the contract. According to the agreement with the policyholder, the provider network is entitled to this.

I thought there is no cash-out if I use any hospital in my list. The hospital still asked me to pay some amount.

What is member contribution?

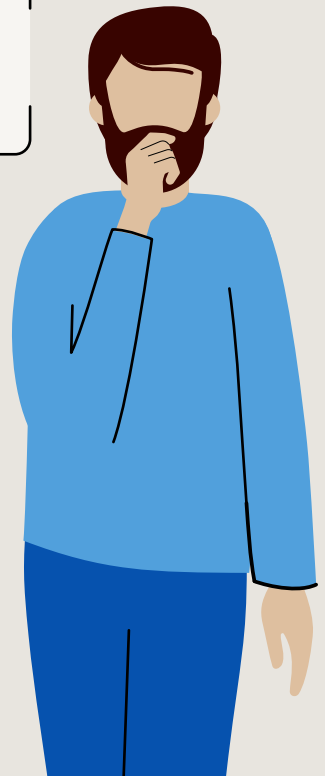

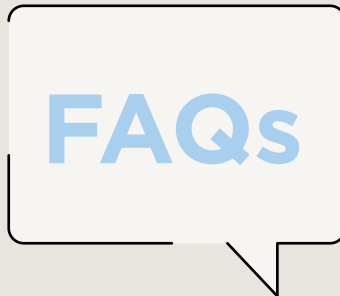

Yes, you don't need to pay any cash for in-patient or day-case treatments. However, as required by law and as agreed with your company, you have to pay to the hospital a certain amount for out-patient services.

In most cases, the level of membership contribution is 10% of the invoice amount up to SAR 100, a level set forth by the Insurance Authority (IA), the government body in charge of benefits cover and health insurance in Saudi Arabia.

Can I go to a hospital not included in my network?

Yes, if you are eligible for reimbursement, you can go to any hospital, clinic or doctor of your choice outside your hospital network. However, you will have to pay for all costs directly to the hospital or clinic. You can then file for reimbursement later, using the Bupa claim form, which you can download at member.bupa.com.sa. This will allow you to claim from us the amount you are eligible for according to your network price.

Note: The reimbursement will be based on customary NW prices.

I'm going on vacation outside the Kingdom; can I use my Bupa Arabia card?

Yes, you can use your card at any of the specific providers that have prior contracts with with us when traveling according to your network. Also, depending on your coverage if you are eligible for reimbursement outside KSA, you can get treatment at any hospital while on vacation or on business at any provider of your choice. However, you will have to pay for all costs directly to the hospital. You can then file for reimbursement and will be compensated as per our policy.

What is claiming (reimbursement)?

This is the process of submitting the cost of medical services provided outside of your approved network of hospitals and clinics and settling it with us based on the terms and conditions of your insurance policy. You need to file your claim form with Bupa within 90 days of your treatment.

What does 'reasonable and customary' mean?

Reasonable and Customary means that all the claimed medical fees and expenses are compatible with our negotiated fee-for-service with providers in your assigned network of hospitals and clinics in Saudi Arabia. Hence, we will match the billed cost of any medical service done outside your network with the negotiated fee-for-service cost of the same service if it was done in your network based on the services rate agreement with our providers.

What are the treatments, medications or procedures not covered?

Based on CHI policy and on international practices and standards, there are certain treatments, medications and procedures that are not covered.

Additional information

No SMS is delivered for requests with "Cancelled", "Acknowledged" and "Approvals" after referral.

Why I am being paid less than what I have spent?

Bupa Arabia pays amounts based on Bupa Arabia's contractual and discounted price of the same service inside your same medical network provider.

We highly recommend to use our medical network to avoid incurring any additional costs form paying directly to the providers.

Why do I have Rejections?

There are multiple reasons for rejections, most common reason is the presenting of an uncovered service according to your table of benefits, also presenting a service that may not be approved by FDA or the SFDA, Medications that are not listed in the SFDA.

If there is service done without justification, prescription or without a medical report to explain the need for, it may also be rejected.

Why is my claim pending?

The claim is pending because there is an important document missing to proceed, you would receive an SMS that describes the missing documents.

Common causes include absence of the Tooth number in dental claims which is needed to record on our system. Absence of the eye test for Optical claims.

Another very common cause is the absence of the "Proof of payment" when a credit invoice is submitted with no indications of payment is available, also the unavailability of medical prescription or medical report to clarify the diagnosis or the condition.

Why is my submitted invoice rejected?

An official invoice must be a formal Itemized Electronic invoice or if manual it should have an invoice number, VAT registration number and with signature and stamp. It is also very important that

all services paid for are itemized and clear in order for us to identify the rendered services and pay for them accordingly.

What is the 90 Days Submission protocol policy?

According to the contractual agreement Between Bupa Arabia and your company, any claim should be submitted within a specified period from the treatment date. Submitting a claim after that specified period would result in rejection of the claim. The period designated for claim submission is usually 90 days for the majority of companies, however, this may vary between one company and another.

How can I update my IBAN?

You can update your IBAN through Bupa Arabia mobile application at any time.

5

One Last Thing

Your membership card is your passport to a comprehensive healthcare. But before closing this booklet, here are some useful reminders:

To stay updated, please ensure that your mobile number and email address are updated in the Bupa Arabia mobile application.

Update your home or/and office addresses for medication delivery service, home lab and home care.

Save the Bupa Arabia 24/7 helpline number on your mobile phone
800 244 0307

Your membership card includes information such as your membership number, scheme type, network level, contribution rate and approval limit.

Register on **member.bupa.com.sa** to benefit from all your insurance services.

That's It!

Your card is activated to provide you not just with healthcare coverage but a host of services designed to give you worry-free convenience when you need it most.

We wish you and your family the best of health.
